

## **COMPASS EDGE Channel Manager & Rate Comparison Tool**

### **MAIN ADVANTAGES**

- A single software to change prices, availability, minimum stay and closures on all the most important portals. You can carry out changes on all or just some of the portals you are registered to, with respect to some room typology or to the entire offer;
- In a single window COMPASS EDGE Channel Manager displays all the reservations received from different portals indicating the related status, and including a chronology of all operations carried out;
- COMPASS EDGE Channel Manager includes PARITY COMPARISON, a tool which lets you compare your hotel's prices with 5 competitors, even over specific periods;
- Certainty to publish equal prices on all portals;
- COMPASS EDGE Channel Manager is web-based: it is not installed on the hotel's computer, but it works from the web. Portals can be updated from any PC connected to the internet and from anywhere in the world. One ID and Password give access to the administration of all portals;
- COMPASS EDGE Channel Manager is so user-friendly that hotels, included in numerous portals, can enjoy a larger visibility and therefore the chance to receive reservations on line.

## **With just a few clicks it updates process & availability on all online booking portals**

COMPASS EDGE Channel Manager helps the work of all those hotels which receive reservations from portals like Agoda, Booking.com, Expedia, etc. With just a few clicks COMPASS EDGE Channel Manager changes prices, availability, closures, minimum stays and other parameters on all the main portals, without losing time and without having to access any Extranet. Any change operated through COMPASS EDGE Channel Manager is real-time applied to all the portals which the structure is affiliated to.

## **The software for hotels which sell through the web**

### **Easy and flexible**

COMPASS EDGE Channel Manager is already interfacing with the most important online booking portals in the world, but it also has a very flexible structure: it can be easily set up, without any further cost, to be used with other portals chosen by the Hotel.

### **Boost your sales with PARITY RATE**

COMPASS EDGE Channel Manager's user-friendliness allows hotels to be included in many portals, thus enhancing their visibility and therefore the chances to receive reservations on line.
